

Robert Cavanaugh

M.S. CCC-SLP

I'm a fourth-year Ph.D. Candidate in the Department of Communication Sciences and Disorders at the University of Pittsburgh. I'm also a clinical speech-language pathologist. My research aims to improve everyday communication and quality of life outcomes for people with aphasia and related neurogenic communication disorders. Specifically, I'm focused on identifying and resolving implementation gaps in aphasia rehabilitation, improving patient access to evidence-based care, and enhancing treatment specification and effectiveness. I'm also interested in applied statistics and data science, statistical programming (R + python + js), data visualization, and science communication.
